

Task 1:

Marie bought a new car and she wants to add it to her vault. She also wants to analyze how that affects her monthly expenses and update the app to have this into account.

Task 2:

Pedro needs to research the best loan program for his situation (under 25 and starting his business) using the articles in the learn section and the chatbot AI help. After choosing the best option he should use the app to take that loan.

Task 3:

Élodie needs to pay her loans, she wants to know how long it will take to save enough using the simulation feature. After realizing it will take too long she wants to analyze her expenses and set limits to know where she can save up.
